

Suitable crowd

Female of all ages troubled by the chilly uterus, vaginal toxin, and sub-health

Function

Dredge human meridians, warm channels and activate blood circulation. Regulate the balance of invivo Yin and Yang, warm the uterus and disperse the stasis. Accelerate blood circulation, enhance immunity.

Direction

Take it diluted by 180-200 ml volume of warm water and adjust by individual taste;
1-2 bars each time and twice per day.

Have you ever experienced any of the following?

Endocrine Disorder

Vaginal toxin disorders the cell metabolism, the frequent occurrence of myoma of the uterus, etc. among the middle and aged women disturb the female health.

Decreased Spontaneous Healing

The vaginal toxin will suppress the cell metabolism, the make them lose the ability of regeneration, spontaneous healing and repair; hence gynecological inflammation of all kinds cannot heal rapidly which leading to the recurrent onset of the diseases and without recovery.

Gynecological Diseases

The vaginal toxin is the breeding base of various bacteria, a long term combination with pathogenic toxin and inflammatory substances will facilitate the formation of stiff bacteria group, which is an important reason of the incidence of gynecological diseases.

Canceration

Ordinary medicine cannot thoroughly exterminate the hidden bacteria and consequently, it will increase the difficulty of treatment; hence, the gynecological diseases will break out recurrently and without recovery in a long term, in more severe cases, there will be malignant canceration.

According to the investigation of WHO: The morbidity of common gynecological diseases is up to 87.6%; The number of deaths from gynecological diseases reaches 9 million each year; There are 20 women dead of gynecological diseases every minute.

Chilly extremities and lower abdomen, chloasma, dark circle of eyes, soreness of waist and easy to wane, menstrual colic, menstruation disorder, easy to abortion and infertility these sub-health symptoms affect the life quality among women.

Ingredient

Cranberry: A natural antibiotic and healthy fruit with strong resistance to oxidation, it can reduce low-density cholesterol and triglyceride; cranberry has the efficacy of preventing urinary tract infection, is benefit for suppressing the attachment of *Helicobacter pylori* to the stomach and intestine; it can reduce the rate of cardiovascular aging lesion, anti-aging, prevent senile dementia, it nourishes skin and maintain a young and healthy skin.

Donkey-Hide Gelatin: Has the efficacy of replenishing blood and nourishing Yin, moistening the dryness and hemostasis. It is used for the treatment of chlorosis caused by the deficiency of blood, vertigo, and palpitation, perturbed and awake, cough caused by lung dryness. In the Shen Nong's Herbal Classics, it is quoted as after a long term usage, lighten weight and replenish Qi.

Ginseng: The fleshy root of ginseng is a famous tonic for strengthening the physique, is fit for regulating blood pressure, recovering cardiac functions, curing neurosis and debility, etc. It can invigorate the vitality, consolidate prostration and engender body liquid as well as tranquilize the nerve. It can be used in the treatment of long deficient and no recovery, and all deficiency syndromes of Qi, blood and body liquid, such as internal lesions caused by overexertion, bad appetite, lassitude, stomach reflux vomiting, diarrhea stool, cough and asthma caused by deficiency, etc.

Dried Longan: Enriched with vitamin and phosphatic substances, has the function of replenishing spleen and invigorating the brain; it contains abundant glucose, cane sugar, and protein, etc, which can facilitate the regeneration of hemoglobin meanwhile enhance thermal energy and replenish nutrition; hence, achieve the effect of blood replenishing, boost memory and eliminate fatigue.

Brown Sugar: A variety of monosaccharide and polysaccharide energy substance such as glucose and fructose-containing in brown sugar can accelerate the metabolism of skin cells and provide energy for cells. The folic acid, microscale substance, vitamin, electrolyte, anti-oxidant substance, amino acid and cellulose-containing in the brown sugar can accelerate blood circulation, maintain the normal function and metabolism of cells, enhance the skin tissue structures and elasticity, has the function of delaying senility, replenishing blood and Qi, accelerating blood circulation, warming the spleen and invigorating stomach as well as dispersing blood stasis and facilitate regeneration.

Red Date: Red date is with mild nature and sweet taste, the contents of vitamin is quite high; it has a fame of ‘natural vitamin pills’ and effects of nourishing Yin and tonifying Yang, replenish Qi and enriching blood, strengthening the spleen and stomach; it has an ideal efficacy in the treatment of allergic purpura, anemia, hypertension, acute and chronic hepatitis and the increase of serum transaminase among liver cirrhosis patients as well as the prevention of blood transfusion reaction; it contains substance with anti-fatigue effect which may strengthen the endurance; it has the efficacy of alleviating the impairment of liver caused by toxicant; the flavonoid compounds in the red date may reduce the blood pressure; besides, red date has a strong function of suppressing cancer and anti-allergy.

Euglena: Contains plenty of vitamin, mineral nutrient, amino acid, non-saturated fatty acid, chlorophyll, lutein, zeaxanthin and GAGA etc. altogether 59 kinds of daily essential nutrients for human body; due to its internal cellular structure, it can absorb surplus substances in the human body, such as, cholesterol, neutral fat, heavy metal, and alcohol, etc. Equipped with potent oxidation resistance, anti-virus capacity and scavenging free radical function. Has a specular effect in the aspect of protecting the liver, alleviating allergic dermatitis, suppressing the absorption and preventing of purine as well as improving gout.

Pueraria Lobata: Has the effect of muscle resolving, defervescence, promote the eruption of skin rashes, engendering body liquid and ceasing thirst, as well as lifting Yang and ceasing diarrhea. Pueraria Lobata contains 12% of flavonoids compounds, such as puerarin, daidzein, and peanut yeast, etc. Besides, there are protein, amino acid, sugar and essential minerals such as iron, calcium, and selenium, etc. for the human body; Precious tonic for all ages.

Rhizoma Polygonati: The in-vitro experiment has indicated that the water extract of Rhizoma polygonati has a suppression function against typhoid bacillus, Staphylococcus aureus, and acid-fast bacillus; the extracted reflected a suppression function on the hyperglycemia caused by adrenaline. In addition, it plays a role in anti-fatigue, anti-oxidation, delaying senescence, hemostasis, and anti-virus, etc.

Yam Powder: Has the reputation of “food of the gods”, Chinese medicine believes that yam has lots of positive effects on spleen, lung, kidney. For lung deficiency cough, spleen deficiency diarrhea, kidney deficiency nocturnal emission, morbid leukorrhea, frequent urination, and other symptoms, yam have a certain healing effect.

Ginger: Ginger is an effective medicine in the treatment of hydrochloric acid-alcohol ulcer, it has the function of protecting the gastric mucosal cell. The gingerol and the structure of diphenyl heptane compounds containing in the ginger are equipped with strong oxidation resistance and scavenging ability of free radical; it has the efficacy of anti-aging, detoxification, and sterilization, as well as tumor suppression.
